

STIFTELSEN för  
STRATEGISK FORSKNING

## Confidentiality

The Foundation has decided that its application selection process is to be subject to confidentiality. No information concerning applications, as regards deliberations or assessments (own or others'), is to be disclosed to outside parties, by which is meant all persons outside the working group in question. This applies even after the conclusion of the selection process.

In connection with your assignment to participate in the selection process for applications received by the Foundation, you are asked to sign the following pledge:

I pledge

- **to** refrain from utilizing in any way or disclosing to an outside party information regarding applications, projects, statements, personal data or the like. By outside party is meant all persons outside the working group in question. This applies even after the conclusion of the selection process;
- **to** refrain from soliciting help in the assessment any other way than by obtaining information about applicants or about details in applications (for example methodology) from an outside party, and then only after I have assured myself that there is no conflict of interest. If a need arises to obtain permissible help from an outsider, the appropriate administrator at the Foundation shall first be notified.

The Foundation decides which documents are to be archived and thereby be made publicly available. This will only be done after the Governing Board has made a decision to award the grant.
